THOMASTIK-INFELD FACTS

- Thomastik-Infeld produces 4.2 million strings each year
- All Thomastik-Infeld strings are designed and produced in Vienna, Austria
- With an export rate of 97%, Thomastik-Infeld strings are distributed in over 86 countries
- 28 different materials and alloys are used in the production of Thomastik-Infeld's strings
- Thomastik-Infeld holds 22 different brands and 49 string lines for 17 instruments
- Up to this day Thomastik-Infeld holds more patents than any other string company worldwide
- Not only developing, but also creating a high-quality music string is a science of its own. While it can take our string developers up to two years to develop the formula for a single Thomastik-Infeld string, it can also take up to two years to fully train a manufactory worker at Thomastik-Infeld to produce our high-performance strings
- 78% of Thomastik-Infeld's employees are women. Most of them work in production departments, since it takes a great deal of sensitivity to produce a Thomastik-Infeld string
- 206 people are working at the Thomastik-Infeld headquarter in Vienna, representing 15 nations
